Work Experience

Sunlux Technovations | Embedded Intern

Feb'24-April 24

- Contributed to the creation of the initial UI, hardware development, and schematics for a significant national project using DesignSpark PCB.
- Worked with STM32Cube IDE and Arduino IDE on embedded C for embedded systems development.
- Engaged in circuit design and analysis using KiCad and BOM creation using MS Excel.
- Utilized gateways, SPI, I2C protocols, and LoRa technology for communication and data transmission.

Suyati Technologies | Front-End Developer Intern

Jan'23-Aug'23

- Spearheaded the development of the UI/UX and frontend for a machine learning-driven Food Order Recommendation System, which personalized food and restaurant suggestions based on user data and order history.
- Leveraged technologies such as React.js, Bootstrap, CSS, HTML, and Figma to enhance the system's user interface and optimize code performance.
- Achieved a 30% improvement in client satisfaction with the enhanced user interface.
- Led front-end development efforts and collaborated effectively within the team to boost user engagement and project success.

Google Developer Student Club | Campus Lead

Jul'22-Jul'23

- Conducted 12 technical workshops and was a key speaker for the events related to web development
- improved my public speaking, leadership, communication, and foundational programming skills.

IEEE SB ASIET | Graphics Designer, Technical Lead & Web Master

Jan'21-Apr'22

- Illustrated event posters and visuals for IEEE SB ASIET.
- I led the technical team for the SSEP (Student Skill Enhancement Program).
- I made best use of tools and skills like Adobe Illustrator, management, technical skill & communication.

Skills

Proficient : C, Python, MS Excel, PowerPoint, MS Word, MySQL, HTML, CSS, Bootstrap, Git, UI UX

Familiar : JavaScript, React JS, Django, SourceTree, NumPy, Pandas

Tools : Ms Excel, Ms Word, PowerPoint, VSCode, Google Colab, GitHub, Linux, Figma, InVision,

Education

Adi Shankara Institute of Engineering and Technology, Kerala, India

2020 - 2024

- Electronics and Communication Engineering* | CGPA: 7.23

St. Mary's Public School, Kerala, India

2019 - 2020

- AISSE (Class XII), Aggregate: 80%*

Nirmala Convent High School, Uttar Pradesh, India

2017 - 2018

- AISSE (Class X), Aggregate: 87.6%*

Projects

Grocery Store Management System

Built grocery store management system using HTML, CSS, JavaScript and Bootstrap as a frontend, django as backend, MySQL as database and Github as a version control system to maintain the codebase

- Helped XYZ grocers automate their order and inventory management processes*
- Used Django as a web based framework to serve HTTP requests coming from the frontend*

Food Order Recommendation System

Developed the UI/UX and frontend of a machine learning-based Food Order Recommendation System that analyzes user data and previous orders to provide personalized food and restaurant recommendations.

- *This project primarily utilized ReactJS, Bootstrap, CSS, HTML, API's, Figma and code optimization.*
- *The backend was built on Django and used AI/ML models to get accurate recommendations .*
- *Increased the client satisfaction with the user interface up to 30%*

[Project repository](#) [View Project](#)

Design and Optimization of Gain and Reduction of SAR using AMC Backend CPW antenna for 2.4GHz

Developed a novel design for CPW antenna along with AMC unit to improve the gain and to reduce the SAR using CST Studio and HFSS.

Object identification and following Bot using HUSKY Lens

Developed a prototype of the object following bot using using Arduino, Husky lens and servo motors.

Academic and Extracurricular Achievements

- **Published Paper in Journal of RF and Microwave Communication Technologies :** Optimized SIW 5G Array Antennas for Mobile Communication Systems
- **Presented Paper in ICAAI5GIOT , University of Malta collaborated with DSIR, Govt. of India:** Bandwidth Optimization Techniques for Microstrip Patch Antenna.
- **Web Polis Winner:** Won first prize in Web Development and UI Competition by Hack Club ASIET.
- **Web Craft Hackathon Runner Up:** Won second prize in hackathon by CSI SB ASIET.
- **National Level Hackathon Finalists:** Conducted by MMDU, Haryana.
- **Bit/Bit Coding Competition Runner :** Coding Event conducted by IEEE SB MES.
- **Circuit Debugging Competition winner :** event conducted by GECT.
- **Idea Pitching Competition :** ACES'22 Runner-Up in idea Competition
- **Zilog 2.0 and Aquadate 3.0:** RunnerUp— IEEE SB ASIET— an idea pitching competition
- **Web Development Bootcamp Mentor:** web development bootcamp mentor under GDSC.
- **Python workshop mentor:** taught Python programming to students in 2nd year of ASIET.
- **IoT Workshop Mentor:** I was invited as the mentor for the event on IoT under GDSC WOW.
- **Programming mentor:** accepted to serve as an IEEE Xtreme programming mentor.
- **National Level Hackathon Coordinator:** Coordinated GDSC WOW Hackathon.

Certifications

- ✓ Python Programming Course from UST - Coursera
- ✓ Introduction to Microsoft Excel - Coursera
- ✓ Visualizing data using Powerpoint - Coursera
- ✓ Introduction to Programming Using Python: LetsUpgrade
- ✓ Embedded C for electronics: LinkedIn
- ✓ Machine learning for Beginners, Udemey

Languages

- ✓ English: Professional Working Proficiency
- ✓ Hindi and Malayalam: Full Professional Proficiency
